

# AF-002

## SPARE ELECTRODES FOR PROMAX SPLICERS

FOR PROMAX PROLITE FUSION SPLICERS

GENUINE PARTS

The electrodes of PROMAX splicers can be replaced in a matter of seconds by the very same user. Proper maintenance and cleaning, as well as using original spare parts, ensures the maximum number of arcs and increases the lifespan of the splicer.

Available for **PROLITE-41** splicers (part no. **AF-002C**) and **PROLITE-42** (part no. **AF-002D**)
